

Take time to Spot the difference

Most of us have spots on our skin. That is quite normal. However be on the lookout for any new or changing freckles, moles, sunspots or sores which will not heal. Consult your doctor if you notice anything suspicious.

Skin spots to watch

Your skin spots may vary from the examples shown

					
Melanoma	Squamous Cell Carcinoma	Basal Cell Carcinoma	Dysplastic Naevi	Solar Keratoses	Freckles & Moles
					
Melanoma	Squamous Cell Carcinoma	Basal Cell Carcinoma	Dysplastic Naevi	Solar Keratoses	Seborrhoeic Keratoses
